This page contains a <marquee> tag. This tag makes the text scroll across the screen. It also has a small HTML form that fetches some weather data about the co-ordinates provided. HINT: Hover over "Weather Form"

The screenshot shows a weather website with a dark header bar containing 'Home', 'Weather Data', and 'Clouds' buttons. The main content area is titled 'Clouds' and includes a 'Types of Clouds' section with a list of ten items: Altocumulus, Anvilhead, Cirrocumulus, Cirrus, Cumulonimbus, Cumulus, Dissipating, Formating, and Stratocumulus. Below this is a large image of a cloudy sky, which is part of an image carousel. A navigation bar at the bottom of the image carousel includes 'Previous', 'Next', and 'Close' buttons.

This page lists some types of clouds. It also has an image carousel. If the first image does not display, simply click the next button and it should continue to work.

This page! It contains this guide, as well as planning and reflection documents.

The bibliography contains links to some of the resources used. You can return to the previous page by clicking go back in the bottom right corner.
